

**Lung Screening Results Notification**

Notice Date: June 8<sup>th</sup> 2022  
Exam Date: May 8<sup>th</sup> 2022

TIM SAMPLE  
1234 Testing Street  
Vancouver, BC V5Z 1G1

**LUNG SCREEN RESULTS:**

Your lung screening CT scan was reviewed by a radiologist and shows no concerning findings for lung cancer. However, there are other findings **not** related to lung cancer which require follow-up. These results have been sent to your health care provider.

**NEXT STEPS:**

Your health care provider will contact you for follow-up. If you do not hear from them within one week of receiving this letter, please contact them directly to make an appointment.

If you are having difficulty reaching your provider or you would like more information, you can call the Lung Screening Program at 1-877-717-5864.

Although a lung screening CT scan is very effective at finding lung cancer early, some cancers may be missed. If you develop any new symptoms such as shortness of breath, chest pain, or coughing up blood, please see your health care provider right away, even if you have had a recent lung screening CT scan.

Stopping smoking doubles the benefits of lung screening and significantly improves your lung health. Please see the enclosed brochure for information and resources on smoking cessation. Studies have found prescription drugs such as Varenicline can improve your chances of quitting. We recommend you reach out to your health care provider to discuss smoking cessation prescription drugs that may be covered by the BC Smoking Cessation Program.

Thank you for attending the BC Cancer Lung Screening Program.

Dr. Stephen Lam  
Lung Screening Medical Director

Your personal information is collected and protected from unauthorized use and disclosure, in accordance with the Personal Information Protection Act and, when applicable, the Freedom of Information and Protection of Privacy Act, and may be used and disclosed only as provided by those Acts. The personal information is used to provide medical services, and to provide Lung Screening Program support to patients. The information collected is used for quality assurance management and disclosed to healthcare practitioners involved in providing care or when required by law. In addition, the Lung Screening Program will advise patients of results, remind patients and their primary care providers about rescreening or follow-up, and will conduct and monitor quality and performance of the screening process.

Any questions regarding the collection of the information by BC Cancer can be directed to: 801 – 686 West Broadway, Vancouver BC V5Z 1G1, or email: [screening@bccancer.bc.ca](mailto:screening@bccancer.bc.ca). If this information is received in error, please contact the sender immediately.
