BC Cancer ST Program Updates for August 2023

| AFFECTED APPLICATION(S)	PowerChart: Oncology/Hematology Regimens and PowerPlans
AFFECTED AREA(S)	BC Cancer VC/ Vancouver General Hospital (Oncologists, Oncology Pharmacy, and Oncology Nursing Staff)
NET NEW, OR UPDATE TO EXISTING BUILD	Update to Existing Build

What has Changed?

Any changes released that affect Oncology Regimens and PowerPlans/Cycles for the **BC Cancer Systemic Therapy (ST) Program** will be communicated monthly via Special Bulletin.

These notification changes are important for Nursing staff, Pharmacy, and Providers to be aware of for their patient's care.

For Providers:

- For PowerPlans that are versioned: If your patient has already started on a Regimen, when you order the next cycle PowerPlan, a pop-up window will appear to indicate a new version is required.

  - Click **Yes** to accept the new version.

  - **Do not** use the Copy Forward functionality to ensure that the updates apply.

- **IMPORTANT:** Any change from the standard treatment regimen (dose modification, addition of pre-med, etc.) in the previous cycle will need to be manually added to the cycle that is being ordered with the new version (see additional documentation regarding versioning).

Please see this month's changes below:

PowerPlan: GOENDCAT

Cycles/PowerPlans: All associated Plans and Regimens

Changes:

Added note to Pretreatment Plan, in Regimen, and Cycle 1 treatment plan:

New patients should be started on GOENDAJCAT and GOENDAVCAT instead of this protocol. Only use GOENDCAT to complete treatment with existing patients.

ONC GO GOENDCAT (Pending)
